

MOCET Communicator™

Amazing HD audio quality from your iPad for home and office
IP3092 Luxury Series

The MOCET™ Communicator is an innovative accessory designed to provide amazing audio quality experience for iPad™ users when running popular Social Networking apps including FaceTime™ and Skype™ from the iTunes™ app store. Simple to setup and easy use, the Communicator seamlessly integrates an HD VoIP phone with super wideband audio allowing you make and receive calls from your iPad while listening to music, watching movies and participating in video conferences with it's acoustically enhanced speaker system.

The MOCET Communicator incorporates high definition (HD) acoustic technology with high quality speaker and microphone providing a superior experience for phone calls, music, Karaoke, recording, and voice/video conferencing. And you can play and work all day with the fast charger for your iPad and 2nd mobile device (like iPhone). An external Microphone pair is optional for group conferencing.

Download MOCET IP Commander for iOS is free from App Store to turn your iPad into a super high-end VoIP phone compatible with SIP IP PBXs and hosted phone services. IP3092 supports a powerful embedded VoIP engine with DSP processor which supports complete basic and supplementary call services and audio functions, like echo cancellation, noise suppression, VAD, AGC, and packet loss concealment.

Play and work all day with the built-in fast charger and additional USB port for 2nd Mobile phone

More enjoyable iTunes experience with acoustically tuned Hi-Fi stereo speaker-phone for music and movie

Enhanced privacy, HD quality and comfort with handset and adjustable stand Perfect for video/voice conferencing

When in VoIP call with IP Commander you can still work on another apps or Safari. It is a best BYOD for office

MOCET
