MOCET

New Generation Video Conference

Product Description

1. All IP-based
2. Unique design that turns all Smart-Mobile-Devices into advanced video conference equipment.
3. Sophisticated Echo-Cancellation, Full-Duplex to cover 30 M² with excellent audio effect.
4. Built-in Wide-Band voice circuits, to provide High-Definition voice that user would feel impressive upon hearing.
5. For point-to-point video conference, it supports Skype video calls and other social video networking applications.
6. For multiple-site conference, it works with most main-stream Multiple-Control-Unit (MCU) currently available in the market, as well as MOCET in house MCU (up to 9 sites).
7. Supports iTV and DLNA dongle to mirror-cast the video images on TV screens.

Amazingly Affordable Cost Advantage that brings High-end Video Conference to any Small and Medium Enterprises.

IP3093 Series for iPhone, Android Phone, and 7" iPad mini, Android Pad

Made for

 iPod  iPhone  iPad

IP3093L : Supports Apple Lightning (8-Pin) connector , available for iPhone 5, 5s, 5c, iPod and iPad mini
IP3093U : Supports Samsung Galaxy series, Galaxy Note series, Google Nexus 4 & Nexus 7, HTC One, One mini, One max, Desire 500, Desire 600...etc.

Four Differentiating Features

There are four built-in modules that make the 3092/3093 novel and different from existing video conference devices.

1. Built-in Blue-tooth module, all wireless operation.
2. High-quality handset to provide private conversation in point-to-point video conference.
3. Built-in High Defination Audio system that turns Smart Mobile Devices into High-end Office-TV or Office-Radio.
4. Built-in charging module to allow two mobile devices charging simultaneously.

No Installation necessary , Plug-and-Play
simply connecting to AC outlet, apply Blue-Tooth pairing
of your smart device with 3092/3093, and
enjoy your video conference.

**Rotary Tray to allow camera aiming at
any user in the video conference.**

Highly Mobile

The 3092/3093 operate wirelessly with all smart mobile devices, and is highly mobile itself.

One set of equipment can be used in all venues, a great saving of equipment investment.

MOCET

New Generation Video Conference

Special value proposition to mobile carrier

1. 3092/3093 can turn all kinds of Smart-mobile-device into High-end video conference applications, a strong tool for carriers' "new acquisition" and "retention" customer programs.
2. 3092/3093 brings Smart-Mobil-Device into enterprise video conference applications while the smart device users would certainly generate much higher ARPU.
3. For mobile carriers who already offer cloud multiple-site video conference services, the 3092/3093 clearly is the best choice for client-side video conference equipment. The absolute price advantage would be affordable to any small or medium enterprise, Thus it greatly help promote the carriers' cloud video conference service.

IP3092 / IP3092L : Product Specifications
